FYI

I had asked why we weren't told the report was finalized in December.

I thought that Doug McKinney sent you an email confirming the report is final. get to the web link, just enter the EPA report # (EPA 600/R-12/724 December 2012) and it links to the report.

We have provided comments to Greg in his response to AES. My understanding is that OSWER is in the lead role in responding to AES in support of your Region and how the data are ultimately used.

Attached is the final report.
